How Group-Site Membership Works

The Components of group-site membership are:

Company Voting (CV) employees (APICS members): CVs receive all society and chapter mailings and have full membership privileges.

Company Associate (CA) employees (non-APICS members): Through the group-site membership, nonmember employees may order materials at the discounted rate. These employees do not receive mailings, membership privileges, or access to members-only content on the APICS Web site.

Company Group Billing (CB) contact (non-APICS member company contact): This record is created for the sole purpose of monitoring group activity. All billing and membership renewal information is sent through this record. This contact can be one of the CV employees.

Transfers: Because the company and not the individual retains the membership, the five CV memberships can be changed to other employees at any time. Corporate membership changes must be made in writing via company email or on company letterhead, including the addition and removal of members, as well as changes to company name and address.

Group-Site Membership Dues

When a company joins APICS, it must do so at both the society and chapter levels. Society dues are \$600 annually and chapter dues are \$300 annually.
